Aspiring Product Manager · NextLeap **Top PM Fellow** (400+ students) · Shipped 2 products with **1500+ MAU** · BITS Pilani Goa
Product Discovery · JTBD · RICE · 0-to-1 Development · GTM Strategy · AI-Driven Workflow Automation

EDUCATION

BITS Pilani KK Birla Goa Campus

Aug 2023 – Aug 2028

B.E. Mechanical Engineering + M.Sc. Physics + Minor in Finance

Relevant Coursework: Principles of Management, Probability & Statistics, Computer Programming, Computational Physics

NextLeap – Top PM Fellow (400+ students)

Sep 2025 – Dec 2025

Problem Framing, JTBD, RICE Prioritization, Funnel Analysis, PRD Writing, MVP Scoping, SQL, Scrum/Agile, GTM Strategy, System Design

EXPERIENCE

Product Management Intern – North Star Contests

Jan 2026 – Present

- Built AI-assisted content generation pipeline using Python, LLMs, and Excel, improving operational efficiency by **200%**; defined KPIs, tracked performance metrics, and mapped customer journeys to drive feature prioritization.
- Designed AI-assisted math generation workflows; analyzed user behavior drop-offs, defined evaluation metrics, and improved **content quality and engagement** through iterative product discovery cycles.
- Collaborated with a multidisciplinary team in **Agile/Scrum** setup; owned sprint planning, and delivery of high-quality product increments on schedule.

Founder and Head – Quality Control Committee (QCC), BITS Goa

Feb 2026 – Present

- Built a **0-to-1 quality framework** serving **4000+ users**; designed inspection workflows, measurable quality metrics, and a real-time reporting dashboard.
- Led a cross-functional team of **13 members**; introduced data-driven feedback loops and improved **stakeholder alignment** across operations.

Mess Convener – BITS Pilani, Goa Campus

Sep 2025 – Present

- Owned operations for a **4000+ user system**; reduced complaint resolution time by **43%** and increased user satisfaction by **80%** through structured feedback loops and vendor coordination.

UI/UX Design Intern – Codsoft

Jun 2024 – Aug 2024

- Designed user flows and hi-fi screens in Figma for 3 products: Signup Flow, Menu App, and E-Commerce Web; applied UX research principles and iterative prototyping to improve usability.

Project Lead – Project Vulcan (ERC), BITS Goa

Aug 2024 – Present

- Led a **16-person engineering team** to build a bionic arm and robotic face; owned problem scoping, design decisions, feature prioritization, execution planning, and iteration cycles.

PROJECTS

Mess Sphere – Shipped Voting Product | *Lovable, Supabase, SQL, Vercel* | **1500+ MAU**

- Built end-to-end from discovery to launch; defined North Star Metric, owned product roadmap, led feature prioritization, and implemented cohort-based **retention analysis** for data-backed, committee-level decisions.

WhatsApp Search & ChatGPT Voice – Product Case | *NextLeap Top PM Fellow*

- Conducted **35+ user interviews**, applied JTBD & RICE, wrote full PRD with success metrics; selected Meta AI-powered search as MVP via **product discovery** — projected **2M new interactions/month**; built GTM strategy and Lovable prototype.

n8n Product Case Study

- Identified root cause of **34% user drop-off** via funnel analysis; mapped customer journeys, defined North Star Metric, built GTM strategy — projected to improve **engagement by 27%** and **ARR by \$1.89M/yr**.

BPGC Whispers – Shipped Anonymous Messaging MVP | *Lovable, Supabase, SQL, LLMs*

- Launched privacy-first platform scaling to **1000+ users**; conducted market research and implemented retention analysis driving **24% retention improvement**.

SKILLS

Product: Product Discovery, JTBD, User Research, RICE, Feature Prioritization, North Star Metric, GTM Strategy, Customer Journey Mapping, Retention Analysis, MVP Scoping, Wireframing, Prototyping

Technical: SQL, Python, Pandas, Excel, Figma (UI/UX), Jira, Agile/Scrum, Power BI, Data Analysis, Prompt Engineering, LLMs

Execution: A/B Testing, Funnel Analysis, Sprint Planning, Backlog Grooming, User Stories, Stakeholder Management, Risk Mitigation

ADDITIONAL INFORMATION

Other Experience: PS-1 Intern – TCG Crest (Quantum Computing Research, May–Jul 2025)

Certifications: UI/UX Design, Advanced Excel, Digital Marketing (Udemy) | ERC Project Vulcan Lead & Junior Coordinator
