EXPERIENCE

Product Management & Growth Intern – Recruno, Bangalore Onsite May 2026 – Present

- Automated B2B recruiting workflow using **Apify, SerpAPI, and n8n**; reduced candidate discovery time by **5x**.
- Collaborated with **founders** on client requirement intake, candidate feedback, and hiring pipeline enhancements; translated client and recruiter insights into process improvements to boost satisfaction and fulfillment quality.

Founder & Product Lead – WizHyre Apr 2026 – Present

- Built and launched a **0-to-1 AI job application copilot** deployed to active users; shipped resume parsing, role profiles, ATS autofill, Ask WizHyre Q&A, and application tracking across web and browser extension.
- Owned product roadmap, user research, onboarding, pricing tiers, subscription gates, usage analytics, marketing, and GTM; converted feedback into PRDs, UX iterations, and release priorities.

Product Management Intern – North Star Contests Jan 2026 – May 2026

- Built AI-assisted contest content pipeline using Python, LLMs, and Excel; reduced manual effort by **3x** and scaled content output by **200%**.
- Analyzed user drop-offs and content quality; prioritized workflow fixes that increased engagement by **23%**.

Founder and Head – Quality Control Committee (QCC), BITS Goa Feb 2026 – Present

- Founded a **13-member** committee and built a **0-to-1 quality framework** for **4000+ users**; introduced inspection workflows, KPI tracking, feedback loops, and stakeholder review processes.

Mess Convener – BITS Pilani, Goa Campus Sep 2025 – Present

- Managed operations for a **4000+ user** campus system; reduced complaint resolution time by **43%** and improved user satisfaction by **80%** through structured feedback and cohort-level analysis.

PROJECTS

Mess Sphere | **Student Voting Product** | **2000+ MAU** | *Codex, Claude, Git, Lovable, Supabase, SQL, Vercel*

- Built a 0 to 1 product from planning to launch after identifying a problem, defined Activation Metrics, owned product roadmap, led feature prioritization, and implemented cohort-based **retention analysis** for data-backed, committee-level decisions.

WhatsApp Search and ChatGPT Voice – Product Case Study | *NextLeap Top Fellow Project*

- Ran **35+ user interviews**; applied JTBD and RICE to select Meta AI-powered search as MVP – projected **2M new interactions/month**; wrote PRD, GTM strategy, success metrics, and working prototype.

n8n Activation Improvement Product Case Study | *Problem Framing, Market Research, RICE, JTBD, Metrics*

- Diagnosed the root cause of a **34% user drop-off** via funnel analysis; mapped customer journeys, applied RICE prioritization, built GTM strategy – projected **27% engagement improvement** and **\$1.89M ARR lift**.
